

November 2018

Dear Parents/Carers

All students are required to have a calculator for maths classes at Castlemaine Secondary College. At times, calculators may also be used in other subjects.

Students need to select the correct calculator for their level of maths:

Year 7 and 8 Maths	Texas Instruments Ti30X bmview
Year 9 General Maths	Texas Instruments Ti30X bmview
Year 9 Maths Methods	Texas Instruments TI-Nspire CX CAS (Recommended)
Year 10 General Maths	Texas Instruments Ti30X bmview
Year 10 Maths Methods	Texas Instruments TI-Nspire CX CAS
VCAL Numeracy and VCE Foundation Maths	Texas Instruments Ti30X bmview
VCE General Maths and Further Maths	Texas Instruments TI-Nspire CX CAS
VCE Maths Methods and Specialist Maths	Texas Instruments TI-Nspire CX CAS

Calculators can be ordered online via <http://www.abacuscalculators.com.au>. These will be delivered to school for the start of Term 1 2019. **It is important to select the correct calculator and enter the correct ID code.**

If you prefer you can purchase calculators from other retailers.

Many thanks

Sharon Rossiter
